

DrexlerLab participates in Photoacoustic Imaging National Science Network

Starting with April 2011, the group of Wolfgang Drexler is going to participate for 3 years in a National Research Network (NFN – Nationales Forschungsnetzwerk) focusing on multimodal photoacoustic imaging sponsored by the FWF.

Headed by **Dr. Boris Hermann** and **Dr. Bernd Hofer**, the *DrexlerLab* will focus on hybrid, high speed photoacoustic / optical coherence tomography for clinical and biomedical imaging.

Principal Investigators:

Otmar Scherzer (Speaker, University Vienna),
Günther Paltauf (Co-Speaker, University Graz)

Peter Burgholzer (RECENDT Linz)
Wolfgang Drexler (Meduni Vienna)
Werner Jaschke (Meduni Innsbruck)
Dirk Meyer (University Innsbruck)
Robert Nuster (University Graz)
